

Microsoft Visual Studio Debug Console

```
Please enter the amount of integers you wish to store:4
1
2
2
3

Vector before insert is:
1
2
2
3

Please enter a value, and then one which you'd like to place after:
value to find: 2
value to insert afer: 3

Vector after insert is:
1
2
3
2
3
3

Outputing LinkedList:
Integer value:1 Occurences: 1
Integer value:2 Occurences: 2
Integer value:3 Occurences: 3

Sum of node integer values is: 6

Testing Remove:
Integer value:1 Occurences: 1
Integer value:3 Occurences: 3

Testing Add:
Index out of range. Adding15 to end.
Integer value:5 Occurences: 1
Integer value:1 Occurences: 1
Integer value:15 Occurences: 1
Integer value:3 Occurences: 3
Integer value:10 Occurences: 1
```

Code functional and testing for all functions shown above^
